PRESIDENT'S AUTO HELD.

Mr. Taft Stopped While Driving Over Road Barred to Machines.

(BY DIRECT WIRE TO THE TIMES.) BEVERLY (Mass.) Aug. 23.—[Exclusive Dispatch.] While President Taft's automobile was spinning along the boulevard at Revere Beach, near Boston, Sergeant Elmer Bickford saw it. He stopped the vehicle but recognized the President and called a patrolman to escort the President's automobile through the drive.

The portion of the road on which the President and his secret service followers were traveling is barred to automobiles. But the President escaped arrest and Sergeant Bickford became famous in a minute.

GEN. REYES RESIGNS?

Troops Surrounding Hiding Place.

Mexico City Hears Governor of Nuevo Leon Has Sent Word by Friends.

Plan to Arrest Him in His Retreat Near Galeana Is Belief in Monterey.

Five Extra Regiments From South Are Sent to Preserve Peace.

(BY DIRECT WIRE TO THE TIMES.) CITY OF MEXICO, Aug. 23.—[Exclusive Dispatch.] Reports received here from Linares near Galeana say Gen. Reyes has sent his resignation as Governor of Nuevo Leon to President Diaz by a personal friend, who is now on his way here. The impossibility of Gen. Reyes securing an interview is said to be the cause of this move.

Troops are still in the mountains around Galeana but have not entered that village. Gen. Reyes is there now. Five regiments of troops have been moved from the southern part of the republic to the north within a week and the government now believes it is in a position to cope successfully with any political disturbance that may arise. It is a secret that of social circles, however, are disturbed by the reports from the North.

The result of Reyes' resignation and its effect on the people when it becomes known is anxiously awaited by the government.

The report that Enrique Corral, former Ambassador to the United States, and at present Governor of the State of Chihuahua, will be made Minister of the Interior, taking the place of Ramon Corral, has not been officially confirmed, although it is generally accepted in the capital. Corral will become president of the Senate when Congress meets, September 18. It is reported that Luis Torralba, Jr., is to be appointed to the governorship of Chihuahua.

Gen. Bernardo Reyes, Governor of Nuevo Leon, aspirant for Vice-Presidency, who is in hiding near Galeana, where he is surrounded by troops. He has sent his resignation to President Diaz, according to City of Mexico report.

NEW AIR RECORD.

Curtiss Shows His Speed.

American Aviator in Contest at Rheims Makes Remarkable Flight.

Cuts Down Time on Course Amid Cheers, and Adds a Few Frills.

Paulham Puts Forth Good Efforts in Impressive Prize Trials.

(ASSOCIATED PRESS NIGHT REPORT.) RHEIMS, Aug. 23.—Gusta H. Curtiss, the American aviator, and Paulham, representing France, divided honors of the second day of aviation week, the former in a thrilling flight just before dark, in which he lowered the speed record for the course, which measures 4.14 miles, to 55.5 seconds; the latter making an impressive high altitude flight, 49% and 84 kilometers, respectively, the endurance test for the Prix de Champagne. Curtiss' performance began just at the time limit for the start of the Prix de la Champagne, when the American aviator, after abandoning hope of seeing his rival, suddenly took the field. He landed a few minutes before had clipped all ten seconds of Lefevre's record. Suddenly at the end of the field cry went up, "The American is starting."

All eyes were directed to that particular point where Curtiss was standing, president of the Aéro Club, America, and a crowd of other aviators were looking on.

Which a preliminary test flight of about 100 yards, the American lightly and shot by the tribune to a height of sixty feet. It was a terrific pace, with the wing level, a plane. Curtiss made the last lap under the mistaken impression that the finish line was closer. He landed as close to earth that he thought he touched, but, perceiving his error, he mounted quickly, crossing the line majestically. An instant later the signal was blown that he had made a record.

Curtiss said that he had not made his machine to its limit, adding that the most interesting incident of the flight was the view he got of his fellow aviators racing around the course.

STRIKERS QUAIL AT SIGHT OF BLOODSHED.

After Fatal Riot of Sunday Mobs Fear to Gather and Troopers Arrest All Who Show Tendency to Disturb Peace—Plant Is in Operation.

(ASSOCIATED PRESS NIGHT REPORT.)

PITTSBURGH, Aug. 23.—Three columns of smoke came from the chimneys of the Pressed Steel Car Company's plant in Schoenerville, Pa., where the strikers, despite efforts of mobs to scare off the imported workmen.

The strikers seemed to realize for the first time that the company could do without them. More State police have been ordered here to augment the company's mounted constabulary on duty at the car plant.

The strikers realize that the mounted troops are too much for them. Yet all day the troopers were subjected to abuse from windows and doors whenever they chanced to pass the home of a strike sympathizer. In the evening a strike sympathizer who left his door step was searched.

Besides searching the troopers examined the strikers personally and if they bore bruises or traces of being clubbed, they were promptly arrested, as the troopers considered such evidence proof that the men had participated in last night's rioting.

Twenty-five men were arrested before nightfall. Those who resisted were manacled to horses and dragged through the streets to the plant entrance.

At noon, the great bells of the cathedral in McKees Rocks began tolling.

This was kept up for over two hours. Then the bells were ordered silenced by State troops as it was pointed out that such demonstration agitated the strikers.

GRASSHOPPERS RUIN CROPS.

Thousands of Dollars' Damage Done Farms in Wyoming.

(ASSOCIATED PRESS NIGHT REPORT.) CHEYENNE (Wyo.) Aug. 23.—A plague of grasshoppers has caused thousands of dollars of damage in the neighborhood of Cowley.

Farmers have been compelled to cut their alfalfa before it had matured, in order to save it from destruction.

All green stuff has been eaten.

Around Cheyenne practically all vegetation has been destroyed.

ARREST PRESIDENT.

(ASSOCIATED PRESS NIGHT REPORT.) LAREDO (Tex.) Aug. 23.—From a reliable source in Monterey it is learned that there has been any movement of Federal troops looking to the arrest of Gen. Bernardo Reyes, Governor of Nuevo Leon, is also stated that Gen. Reyes is still visiting in the neighborhood of Galeana.

It can be stated with certainty that recently there has been no movement from Saltillo, Monterey or Monte Morelos, in the vicinity of Galeana. The two former railways are on the line of the National Railway of Mexico, Monte Morelos is on the line of the Mexican Central or the old of the Mexican Gulf Railroad, a line running from Monterey to Tampico. No troops have traversed either of these lines today.

Gen. Reyes is quietly visiting near Galeana, and is taking no active part in the political efforts of the Reyes for the Vice-Presidency.

So popular is Reyes with his party that it is feared that any effort on the part of the Federal government to arrest him would incite his zealous partisans to such an extent that riot and bloodshed would result.

PRESIDENT TO TRAVEL BY REGULAR TRAINS.

Congressman Needham Tells of Mr. Taft's Coming Trip Through California—Several Short Journeys in East to Come Out of Appropriation.

(BY DIRECT WIRE TO THE TIMES.) MODESTO, Aug. 23.—[Exclusive Dispatch.] President Taft will spend the afternoon and evening of Tuesday, October 5, in San Francisco and the morning of the same day in Oakland.

Such was the statement of Congressman Needham of the Sixth District when interviewed upon his arrival here today from Washington. This is according to a final arrangement of the President's itinerary of his California trip.

An interesting feature of the proposed trip is the President's determination to travel only on regular trains, to which his private car will be attached. One reason for this determination is the fact that the recent appropriation of \$50,000 by Congress for the President's traveling expenses must last the year out and as President Taft has a number of important trips to make in the East after his return from the Coast, he will need the whole appropriation. It is estimated that a special train on the trip would cost about \$12,000. The President feels that if he broke the rule in one case he would be called upon to do so in others.

Congressman Needham outlined the full trip as follows:

Starting from Beverly, Mass., September 15, the run, with but one or two stops will be made to Seattle, where the exposition will be visited. Coming south through Portland, the party will arrive at Sacramento Monday, October 4. A day will be spent at the capital, and the run made to Oakland early Tuesday morning so the entire forenoon may be spent in that city.

Spending the afternoon and evening at San Francisco, the Presidential party will leave for the San Joaquin Valley at 6:30 a.m. The Southern Pacific officials announce that arrangements will be made whereby a stop not exceeding fifteen minutes will be made at each county seat. The President will greet the people of Modesto and Merced from the car platform, stopping at the former place at 12:25 p.m. and at the latter at 1:30 o'clock Wednesday.

From Merced the party goes into the Yosemite Valley, remaining three days. As President Taft desires this to be a period of rest the party accompanying him will be small.

It will probably consist of Senator Lillingham of Vermont, Congressman Needham, the military aides, the secretary, secret service men and newspaper men.

A stop of three hours will be made at Fresno, the party arriving at 3:35 p.m., Sunday, October 10. From Fresno the run will be made direct to Bakersfield, the home city of Congressman Smith. After a short stop there, the party will continue to Southern California.

Needham goes to Fresno tomorrow to arrange the programme with the Fresno committee.

Speaking of the tariff, Needham said: "There was a number of points in the tariff law which as a California representative and member of the committee, I did not approve. I think the new tariff law is as good as any tariff law can be made, and will work out very satisfactory."

In this connection, he called attention to disavowals which a great many people overlook. While the House members each represent practically the same number of people, such as Idaho, Wyoming, Nevada, etc., have just as much voice in the Senate as New York or any other commonwealth. For that reason the demand of two Idaho Senators for protection of lead had as much weight as would a demand from a State with many times the population.

Needham says at public sentiment demands large appropriations for various projects the matter of revenue is an important one to consider. To lessen the tariff, new forms of revenue such as an inheritance tax and the corporation tax were brought up. He states that the latter has been carefully gone over by the government's legal experts that no trouble is expected from it, and he believes it will stand any test. The inheritance tax will be left to the States which will handle the matter after the States have taken a stand.

In framing a measure like the tariff much data must be had, and there is but little time to properly collect and digest it. He believes that the present and discuss it properly. In the meantime business is at a standstill and action must be taken quickly.

Congressman Needham will remain here during the summer.

HALTED AT THE GRAVE.

Undertaker Stops Funeral, Claiming Contract to Cremate Body.

(ASSOCIATED PRESS NIGHT REPORT.) GOSHEN (Ind.) Aug. 23.—What the funeral cortege of Charles Cray reached the cemetery today it was met by C. B. Stiver, an undertaker, and his attorney and several policemen who prevented the coffin being lowered into the grave, on the contention that Cray, six years ago, entered into a contract with Stiver to have his body cremated in Chicago.

The body will be held in a vault until the court decides the controversy. Cray's wife alleges that he was not mentally responsible when the contract was made.

PRESIDENT TO DEFEND TARIFF LEGISLATION.

(ASSOCIATED PRESS NIGHT REPORT.) BEVERLY (Mass.) Aug. 23.—It was intimated at President Taft's cottage today that the administration was prepared to defend the last ditch its record on the recent tariff legislation.

This was unofficially stated in connection with an announcement that Senator Aldrich would be here Thursday. The chairman of the Senate Finance Committee is expected to discuss the monetary commission and other matters. These "other matters" are supposed to include a talk on the tariff.

If the western opponents of the new tariff law expect silence from the President or a reluctance on his part to discuss its different provisions they will be disappointed. The administration has burned its bridges and is

Y., of the firm of Reed & Barton, silver-smiths of New York City, today filed a suit for divorce on the grounds of desertion. Frank C. Barton has a fortune which has been estimated at \$5,000,000. It is understood that the property rights of the parties to the action have been settled out of court and that Mrs. Barton is to receive from her husband a lump sum of \$100,000, with an annuity of \$50,000. In addition to the fortune possessed by Barton he is the owner of one of the finest and largest places in the city, California. The divorce suit was filed for three months before it became known that she was in Nevada for the purpose of establishing a legal residence. BANKERS' FLIM-FLAM.
BROWN MAKES CHARGES.
[ASSOCIATED PRESS NIGHT REPORT.]
SAN FRANCISCO, Aug. 23.—The bankers flim flam the assessors, "was the summing up of his conclusions to-day by Chairman Brown, after he had interrogated Assessor Cummins of Fresno county at the meeting of the State Board of Equalization. Bankers all over the State delude the assessors with evasions and statements that would wreck them if made to bank commissioners, declared Mr. Brown.

DEVELOPED FROM ASSESSOR CUMMINS' TESTIMONY THAT THE ELEVATED BANKS IN FRESNO COUNTY HAD ONLY A TOTAL OF \$150,000 OF "MONEY AND SOLVENT CREDIT."
It is no doubt that the bankers of our country shift their money," admitted the Assessor.

THE ASSESSORS THROUGHOUT THE COUNTRY WERE FOUND TO AVERAGE ABOUT 85 PER CENT. OF THEIR APPRAISMENTS, AND THE COUNTY SHOWED AN INCREASE IN ITS ASSESSMENT ROLL OF \$1,500,000 IN FOUR YEARS.
In Tulare, the proportion ranged between 41 and 80 per cent., but the board found that in Kings county, Assessor G. M. Murray had assessed property of only 33 per cent. of the appraised values.

WIFE DESERTION INCREASES.
Uniform State Laws Sought for Physical Causes.
[BY DIRECT WIRE TO THE TIMES.]
DETROIT (Mich.) Aug. 23.—(Exclusive Dispatch.) On information in but one case out of six of wife desertion the woman is at fault and the usual desertion is not physical or weak or discouraged nor does because of his helplessness or temper. But rather, it is an unbalanced young man, going to in a selfish and vicious nature. The desertion of uniform state laws in session here are endeavoring to cure a law which shall make desertion for desertion and non-physical causes a crime. Today's session was largely devoted to working on the first tentative law. The committee included the first draft of a bill make uniform all marriage and divorce laws. From the statistics, the statistics reports, the offense is increasing and it appears to be due to a number of causes. The desertion of desertion usually abandons his because he wants to avoid the care of some unusual trouble. But the man is not the only one who is able to support the child. HEAVYWEIGHTS ARE THE RAGE.

McCarey Plans to Stage Big Follies in Future.

Fans Want to See Real Men Thump Each Other.

Johnson Accepts Terms to Fight the Winner.

Tom McCarey, manager of the Pacific Athletic Club, has set himself the task of building up the heavyweight division of the boxers on the theory that the fans want to see real champions fight, men who can be pointed out as being able to whip any one in the world.

To start the ball rolling, McCarey is staging the Burns-Harry fight tonight at the Los Angeles Sports Arena. The winner is scheduled to fight Jack Johnson on September 21 or 24. After that McCarey will not only give every likely heavyweight a chance, but will go out in the by-ways in the effort to pick likely men to develop into first class.

Jack Johnson last night accepted the terms offered by McCarey and telephoned authority to go on with the fight. Burns has already signed an agreement to conclude a match if he wins, and Harry has given his word.

probably will attach his name to the movement today.

Terms are complicated at present and will not be concluded until final articles are signed. McCarey has given Johnson a substantial guarantee with the privilege of giving a percentage of the gross to the fighter.

A big talk that has been caused by the Jeffries-Johnson affair has set the fans to thinking, and he has come to the conclusion that the fans want to see the big boys get together in a fight. For boxing exhibitions the fans are all right, but when it comes to stinging and actual fighting, the heavyweights furnish the real drama. The fans like to hear the thud of the fists on the heavy gloves, and they like to see a great fight. He believes that the public wants to talk about champions, not of the little boys whom most any big man on the street can wallop.

There are few big fellows fighting in the only good man in the ring. His name is Mike Kutchos, and he is a real champion. Jeffries' condition is still doubtful. Kutchos is a dub compared to the old-time heavyweights, yet he is enough to be used in the eliminator contests. Harry and Burns are quite others on the coast. Good enough to fight, unless it is a fight, and he is too light and soon fade away against a real weight.

The east there are Al Kubiak, Willie Stewart, and one or two others. But there is no reason why cannot be developed, and McCarey is going to develop them. He believes that the Johnson bout will be a great interest and that after it will be easy to start the building. Dick Allen and Dr. Roller are considered for a bout here.

ALSO MIDDLEWEIGHTS.

dentally, McCarey will also go into the middleweights. There are men, such as Kutchos, Langford, and a few others. Although championship is undisputed except in the middleweights, there are a few middleweights of class that others must be beaten in order to give the champion a chance to defend his title.

Harry has already found a likely man in Dan Sullivan, who says he can beat him, and last night the newcomer for a chance to go on with Jim as a try-out. He is a brother of the famous Jack Sullivan and is better than his brother.

McCarey pointed Flynn. As some people have expressed doubt of Jack's ability, Flynn, Dan says he is a better fighter than his brother and will settle the question of Sullivan's ability.

When Flynn arrived in town yesterday he was met by his brother, Gene, and they went to the Sports Arena. He met Gene last night and fought a bout with Flynn as a try-out. He is a brother of the famous Jack Sullivan and is better than his brother.

McCarey pointed Flynn. As some people have expressed doubt of Jack's ability, Flynn, Dan says he is a better fighter than his brother and will settle the question of Sullivan's ability.

TONIGHT'S WINNER.

McCarey to make a good match with Johnson, the winner of tonight's fight must show decisive superiority.

has been trying to establish

Hazel and Anna Loomis of Inglewood, Successful Deer Hunters.

Hazel, the larger girl in the picture, killed the season's first, the only instance on record where a woman was successful in late years in accomplishing the feat.

or he will be considered to have little chance with the colored champion. Burns has already proven his class and may have a chance with the black, but this is the first time Burns has met a really good man. He is extremely confident, however, and many have picked him to win.

On past performances Harry must be considered a favorite, for he has been tried and proven. He is a better boxer and probably just as hard a hitter. It will probably be the man who can stand the gaff who will be returned the winner. The battle probably will be bloody and hard-fought, and it is likely both men will be considerably used up.

Burns had a long talk with Tom McIntyre yesterday afternoon. McIntyre wants to get even with Harry for his attack upon himself and Phil Brock, so he gave the Colingier giant all the points he had on Barry's boxing. It may stand Burns in good stead tonight.

MIKE'S CHANCE.

Most fans believe that Mike Kutchos hasn't the ghost of a chance to beat Danny Webster tonight, but their belief is not shared by the little Greek or his intimate friends. Mike has a world of confidence in himself, and is of the opinion that he is a world-beater. Tonight's results will show

Mike Kutchos, who is to fight Danny Webster tonight.

just how good he is, for in Webster he meets the kind of a fighter who can beat him decisively if any one can.

Mike is no slouch. He is tough and can cover well to avoid punishment. He can also hit, but except in defense he is not very clever. A long fight would suit Mike better, and it is doubtful if he can show any superiority in ten rounds against such a slashing fighter as Webster.

Kutchos will be at his best weight tonight, but Webster will be drawn very fine and may be weakened greatly. He has been fighting around the 125 mark for nearly two years, and though he might do 135 comfortably it is doubtful if he can get below that and do himself justice. Mike bases a great deal of his confidence on that point, as man for man Webster is built on a larger and stronger mould.

NEW LIGHTWEIGHT.

Jimmy Brady has received more touting, for a negro, than any small man who has broken into the game here in years, and it is believed a very good lightweight has been discovered. Brady has only been fighting a few months, and has secured a draw or better from all the men he has met, including some of the best preliminary men here and in San Diego. The boy has done all his boxing in San Diego and tonight will be his first appearance in a Los Angeles ring, when he meets Boston Joe Kelly.

If Brady were a white boy he would receive instant recognition, for he is rather clever, a hard hitter, and game to the core. The doubtful reception of black boys is against Brady, for he will have to show extraordinarily well to break in. Jack Johnson, Sam Langford, Joe Gans, Jack Blackbourn and other negroes have made the white fighters wish there were a law prohibiting promoters to match the blacks with white men, and the fans have sided in with the white boxers except when they believe the white fighters have a good chance to win.

When a black man is good he is real good, as for instance, the men mentioned, not forgetting Peter Jackson, George Dixon and a few others. A negro has muscular development as good as or better than a white man; he is not so sensitive to nervous injury; he is less apt to be hurt about the head and face, and when he has intelligence he can carry on a ring battle as well as any one.

In addition, his legs are built on a lighter scale than his body, shoulders and arms. Therefore, when a negro weighs in as a lightweight he usually puts up the fight of a welterweight. Joe Gans in his prime hit as hard as any welterweight, and from Blackbourn was built as one. He was as good as any welter, too, as was shown by his easy victories over Mike (Twini) Sullivan and others.

With these handicaps in their favor it is no wonder negro fighters make good against white men of their weight. Superior intelligence of the white man (if he has any in the fighting game) is not sufficient to overcome the other handicaps. It is safe to say that were the negro boxers taken in hand, cared for, and given an equal chance with the white men, all the champions with an exception occasionally would be negroes.

WOMAN KILLS LIMIT OF DEER.

MISS HAZEL LOOMIS GETS TWO IN BIG TEJUNGA.

Modern Dams of the Hunt Shops Rifle With Accuracy and Establishes Record for Southern California—Shot Deer Last Season and Keenly Enjoys the Sport.

Miss Hazel Loomis, twenty-year-old daughter of L. J. Loomis of Inglewood, shot two deer, a full season's limit, at Honey Springs, near the head of the Big Tejunga, on a hunting trip which ended last week.

This establishes a record for Southern California. A few women have killed deer, but none of them so far as known, have ever killed two deer and on one hunting trip.

The party killed three deer in all, the two shot by Miss Hazel and another killed by her father. Another daughter, Miss Anna, 16 years old, accompanied Mr. Loomis. Both girls are fine shots, and are used to roughing it in the mountains.

One of the deer was a six-pointer, weighing 160 pounds dressed. The others were a two-pointer and a spike, weighing ninety pounds each.

The party has gone out two seasons, and last year Miss Loomis brought down two deer, which weighed nearly as much as the larger one gotten this trip. Another one, a spike buck, was dropped by Mr. Loomis. It tipped the scales at a little over 100 pounds.

The party left on July 30 and returned last week.

opened this morning on the 300 targets with forty-eight teams contesting for the national trophy, the United States navy is ahead with 100, but Massachusetts is crowding hard with 1075 and New York with 1076.

On the 200 yards shoot which opened the match, the navy led, closely pushed by the Massachusetts cadets, while at 500 yards the New York team, which came here with only about a week's practice at Searight, tied the navy for high score and pulled up from ninth to third place.

Steps toward arranging with Canada for an international meet next month at Searight have been taken by the Association of Riflemen, which held a meeting here last night. The association selected General Spencer as president.

Wise Talks By The "Office Boy"

There is a little article in the August Munsey, on page 760, entitled, "If you were to resign would you be re-elected?" That I'd like to have you read and roll around in your mind awhile; it's good stuff—the kind that makes you stop a moment and think it over. Human nature is so constructed that neither a boy nor a man can develop good common sense and clear judgment, learn to think quickly and decide instantly, unless he is placed in a position where he is obliged to figure his way out.

There is no grander sight in the world than a young man, fired with a great purpose, dominated by one unwavering aim. He is bound to win. The world stands aside and lets him pass. He does not have one-half the opposition to overcome that the un-aided, purposeless man has, who like driftwood, runs against all sorts of snags to which he must yield because he has no momentum to force them out of his way. What a sublime spectacle to see a youth cutting his way through difficulties and surmounting obstacles, which dishearten others, as though they were stepping stones. I have passed by stores and seen a window full of goods and a ticket conspicuously displayed one-fourth off. A week later the ticket would be changed to one-half off. Set a price on yourself and never mark yourself down; let me urge you to stand erect in your own vigorous manhood and receive with all the power in your being that there will be one more successful man. That if someone has to fail, it will not be you. Be honest, be industrious, be kind, be charitable, be able to say to yourself every night before retiring, I played fair all today, and you will be able to enjoy a good, sound, refreshing sleep. Are you one of our customers? Either store.

The new purchasers, The
 Times-Mirror Company, con-
 template the early erection of a
 handsome one-story building
 front to be leased for stores
 or other business uses, and the
 remainder, about 65x97 feet, to
 be arranged for some special
 purpose. The owners offer to
 build to suit the particular re-
 quirements of long-term ten-
 ants, and may be communi-
 cated with by prospective

NEW RIVER BRIDGE.

Board of Supervisors Announces That
 Old Structure Near Lankershim
 Will Be Displaced.

The Board of Supervisors announced
 at yesterday's meeting that a new
 bridge will be built over the Los An-
 geles River near Lankershim. A num-
 ber of persons who have occasion to
 use the bridge reported to the board
 that the old frame structure is un-
 safe.

It was first suggested that the bridge
 be built by the Highway Commission,
 but Commissioner Bixby opposed this
 on the ground that the bridge had
 not been included in the original es-
 timates under which the good roads
 bonds were voted. He said to divert
 any portion of the fund for this pur-
 pose would interfere with the construc-
 tion of the 207 miles of highways to
 be built under the bond issue.

The Colegrove Board of Trade peti-
 tioned the Supervisors to change the
 name of Santa Monica boulevard to
 Colegrove boulevard. It was referred
 to Supervisor Eldridge. He said he
 would like to see a bridge over the
 San Gabriel River at Hunt Crossing was
 referred to the Bridge Committee.

H. J. Willcott and Susan M. Doran
 were accepted as sureties on the \$40,
 000 bond of Doran, Brouse and Price,
 the contractors who are to construct
 the Wilshire boulevard section of
 highway.

PHOENIX HAS HOT WEATHER.

Thermometer Gets Off Easy
 but People Suffer.

Few Tuberculosis Cases Are Started in State.

Yuma Supervisors Wary of Would-be Hosts.

(SPECIAL CORRESPONDENCE OF THE TIMES.)

PHOENIX, Aug. 11.—According to
 the local station of the Weather Bu-
 reau, yesterday was one of the most
 oppressive days ever known in Ari-
 zona, though the temperature was
 only 102 deg. in the shade, but with
 humidity that ran up to about 80 per
 cent, and an almost total lack of wind
 movement. The hottest day ever
 known in Phoenix was in July, two
 years ago, with an official temperature
 record of 117 deg., but the humidity at
 the same time stood at 4 per cent. No
 complaint of the heat, however, was
 made by more than 100 local residents
 who spent several days of the week at
 Indian on trains stalled in the desert
 by washouts. About 800 east-bound
 passengers were on the train and they
 soon cleaned up all the apples with the
 exception of melons, which seemed to
 be an inexhaustible supply. Dr. J.
 W. Pess and Dr. F. H. Redewill of
 Phoenix were the only physicians on
 the six trains, and they were kept
 busy answering calls upon them by
 passengers, who were suffering mainly
 from heat.

Territorial Health Officer E. S. God-
 frey has started the compiling of data
 covering the causes of death through-
 out Arizona. During June forty-four
 deaths occurred from tuberculosis,
 only eight being from diseases con-
 tracted within the Territory. Of the
 eight, six were Mexicans and one was
 Spanish. The total number of deaths
 during this month was 180.

A statement made in Tucson to the
 effect that Frank J. O'Brien, the stock
 broker, who lately suspended business,
 had only \$12,000 liability, is very inter-
 esting in Phoenix, where O'Brien owes
 at least \$10,000. He had a branch of-
 fice in this city, as well as in No-
 gales. Several of the local creditors,
 headed by Mr. W. L. Latta, are pre-
 paring to take legal action against
 O'Brien.

Mrs. Ada Otis, who committed sui-
 cide last week, died at 4, and was
 very well known in Phoenix, where
 she spent three winters and where she
 was very popular society. William
 Coleman, to whom she left a farewell
 note, owns considerable property near
 this city, and was in Phoenix for
 much of the time of her residence here.
 The divorced husband is still a resi-
 dent of Arizona, where the couple were
 married in 1924.

THE PUBLIC SERVICE In the Courts and Offices.

SUMMARY OF THE DAY.

The Police Commission will ask the Council to amend the ordinance so that the license for a grocery store may be revoked.

A series of hard-luck happenings for the family of Harry Hirschfeld culminated in his appearance before Justice Williams yesterday on a charge of embezzlement.

C. M. Webb added \$10 to his automobile expense account yesterday when trouble into which the machine got him caused Justice Chambers to name him that amount.

Arthur Goldener will have to be good for a year or serve twenty-five days in the City Jail on a charge of intoxication, according to a ruling by Justice Williams yesterday.

Judge Davis indicated yesterday that Clarence Crane, afflicted with tuberculosis, who pleaded guilty to a charge of forgery that he might be sent to the penitentiary, where he could be treated for his malady, will be taken care of by some philanthropic person. William Shiley of Pasadena, bequeathed a fortune of \$25,000 to his two daughters and a sister. Part of the funds are to be held in trust for their benefit.

AT THE CITY HALL.

GROCERY BOOZE GETS A RAP.

POLICE COMMISSION WOULD REVOKE ALL PERMITS.

Authorless Former Judge Trask to Appear Before the City Council and Urge the Amendment of the Wholesale Liquor Ordinance—Margolis Wins His Plea.

If the Police Commission has its way the City Council will amend the ordinance authorizing the granting of wholesale liquor permits so that groceries may be excluded; and at the same time it would have the amendment so made that those now in existence—only four—may be revoked.

To carry out this purpose former Judge Trask was made a committee of one last night to prepare a resolution for the commission and present it to the Council giving the reasons why the ordinance should be amended.

It is particularly a Trask idea, because he has always held in the sessions of the commission that the family liquor store and the wholesale grocery privileges are the worst forms of liquor selling. He holds that this method of delivering liquor with groceries is the most dangerous invasion of the home, and should never have been countenanced.

Recently Arthur Cohn, a Seventh-street grocer, applied for a wholesale permit and was refused. He defended his request on the ground that several permits have been granted to grocers, and that refusal to others tends to give them a monopoly, not only on the liquor trade, but on the sale of groceries. A majority of the commission, including Trask, voted not to grant Cohn a permit, and he said that it is not well to enlarge what the commission already believes to be bad.

"Joe" Margolis made a plea to the board that a junk collector's license be granted to him without reference to the Chief of Investigation. He explained that Margolis collects in Santa Monica and Ocean Park, where he holds permits, but sells his junk in Los Angeles. He was arrested and fined because he had no city permit, and delay was necessary to investigate his application. Margolis is a poor, ignorant Russian, must suspend work. The commission must oblige him. "Joe" declared that Margolis has ten children to support. The commission relented and voted to grant him a license for the first time.

"But if we find that he has only nine children we'll revoke the permit," said the Mayor, laughing.

"Wouldn't it be that eleven he has," said "Joe," "a permit for nothing you will give him, yes?"

Harold Nielsen, appointed a patrolman last January, applied for retirement on pension because of tuberculosis. A certificate of Police Surgeon Quint stated that Nielsen has tuberculosis, and is a danger to the service. Nielsen explained that his examination before appointment showed no sign of the disease, and he believes he got it during exposure last winter. The application was referred to the pension board.

Matson & La Barre, proprietors of the Ceres Cafe, Ceres and Central avenues, who were cited to appear to show cause why their restaurant liquor license should not be revoked, asked the commission to revoke it, as they said it is more trouble and expense than it is worth.

COUNCIL FORECAST.

THUNDER IN THE INDEX.

The residence district ordinance, a spur track on Commercial street, sixteen salary ordinances and a new phase of the old, old garbage story are things that will keep the Council busy at today's session.

The residence district ordinance will be involved in the protest of residents near Hope and Thirty-fifth streets against the location of an industrial district between Grand and Hope and between Jefferson and Santa Monica streets. The district has been a residence district for many years, but under the operation of the new ordinance making the whole city a residence district, out that portion not already in use, although it is between and along railroad tracks.

It is regarded as a concrete case where the absurdity of making the whole city a residence district is shown. If every industry seeking a new location must face such a fight as the Elmer Lumber Company has in the "32" case, it is conceded the law will be a dangerous discouragement to business. Several Councilmen favor repealing the ordinance and then picking out the portions exclusively residential and protecting them from industrial uses.

The Board of Public Works will recommend that the application of M. H. Hellman for a spur track in Commercial street be denied until the petitioners agree to comply with the requirements of the City Engineer. This official order that the spur will encroach on the sidewalks and be a serious impediment to teaming in the streets.

The sixteen salary ordinances promise several fights. As a number of city employees who did not get increases have appealed to their friends in the Council to upset the work of the Budget Committee. One of those working hard for an increase is Guy W. Edlin, city prosecutor, who wants a raise a month. He now receives \$100 and works short hours. It will take six votes to pass such ordinance, and so there are only seven Councilmen in the city the prospect for success is regarded as good by some of the hopeful employees.

AT THE COURTHOUSE.

WILL CARE FOR SICK PRISONER.

GOOD SAMARITANS OFFER HELP TO UNFORTUNATE.

Man Who Pleaded Guilty to Forgery a Time Check So That He Might Go to Prison and Be Looked After by Physicians, May Be Allowed to Go Free.

Clarence Crane, the tall, dark Southerner from the swamps of Florida, who stood up in Judge Davis's court, Saturday, and pleaded to be sent to prison in order that he might have the benefit of the care of a physician in the treatment of tuberculosis, was again at the bar yesterday for disposition of his case.

Crane had declared that he was guilty of the forgery of a time check for \$2.50, but insisted that he was without funds and that he committed the crime to secure money to get medicine.

He presented a pitiable sight when called in court. The disease has made such inroads upon his throat that he could hardly speak, and it was with much difficulty that he could make himself understood by the court.

The publication of the sad story of the lad had aroused much public interest, and it was announced that several offers had been made to take care of Crane, where he would have the benefit of medical aid and plenty of outdoor exercise. The names of the Good Samaritans were not given to the public, but without doubt, Crane will be allowed to escape the disgrace of a penitentiary sentence, and that he will be looked after as he should be.

Without determining the case yesterday, Judge Davis indicated that such a disposition would be made of the matter.

"How thankful I would be if I had a chance to be cared for, and have an opportunity to do light work in the penitentiary, I never committed a crime before in my life," said Crane, as he limped back to jail.

HOLMAN DIVORCE.

HUSBAND IS RESTRAINING. Judge Wilbur has issued an order restraining Guy W. Holman, formerly a real estate dealer of Long Beach, from interfering in any way with the property of his wife, Mrs. Holman, who has started an action for divorce.

The wife owns real estate in Long Beach, Los Angeles and Fresno, and is possessed of valuable jewelry in safe deposit boxes in this city. Mrs. Holman owns her house at 46 Linden avenue, Long Beach, but since July 16 has been in the Long Beach Sanatorium.

The Holmans were married in 1907, and in her complaint she alleges that he has treated her in a cruel and inhuman manner, but that she trusted to his honesty until June 12, when she says he beat her, and since then the petition states, he has misappropriated her money.

She charges that he has called her "crazy," a "dope fiend," and a user of drugs to excess.

Mrs. Holman's property, according to her own statement, includes an eighty-acre farm in Fresno county, with buildings worth \$500, with horses, mules and implements, near Raisin City, Cal., residence and outbuildings at No. 46 Linden avenue, Long Beach; a lot 60x120, with a two-story house, at No. 1221 Western avenue, Los Angeles; also deposit boxes in local banks in which there are said to be, besides deeds and other valuable documents, a diamond necklace worth \$125, fifteen rings set with diamonds worth \$1500, and other jewelry. To these boxes Holman has the key, hence the restraining order.

Mrs. Holman is a member of a wealthy family at Long Beach, and he said he is in receipt of an income of \$7000 a year. It is alleged she has a brother in the east who has a very large income. She is one of the Herberman family of Pittsburgh.

DAUGHTER'S BENEFIT.

SHIRLEY'S MONEY DIVIDED.

The will of William Shibley, who died in Pasadena ten days ago, aged 78 years, was filed for probate yesterday. It disposes of an estate valued at \$25,000, made up of money, mortgages and stocks. The instrument was executed December 22, 1908, and Oscar O. Freeman of Pasadena is nominated as executor without bond.

To the daughter, Elizabeth Shibley, \$2000 in cash is bequeathed. To a sister, Sarah M. Root, during her lifetime, is given lot No. 13, Miller & Carlin's subdivision of Pasadena. To Oscar O. Freeman is given 125 shares of the capital stock of the National Bank of Cohoes, N. Y., to be held in trust for the benefit of Mary Shibley Fluke, a daughter, until she is 21 years of age. If the bank should liquidate or in any event, when she reaches that age, the stock of the bank is to be sold, and the proceeds thereof, shall be turned over to her.

To Mary Shibley Fluke is given the testator's diamond ring and gold watch, and the balance of the estate, real and personal.

RELIGIOUS ENTHUSIAST.

WRONG WITNESSES CALLED.

"Does counsel for the State claim that every one who asserts he is called by Christ to preach is insane?" This was the query put to Deputy District Attorney Donnell by Attorney Carrigan in an insanity case on trial in Judge Wilbur's court yesterday.

"I shall enter into no stipulation on theoretical subjects," testily replied Maj. Donnell.

At that point the witness in regard to the examination of witnesses having become crossed, a recess was taken until 2:30 p.m.

The accused, whose sanity is a jury is trying to determine, is W. A. Dyer, who previously to his arrest about a month ago, was assisting at religious services in a tent on Boyle avenue. It was alleged by those back of the man that he had been talking about the second coming of Christ, stated to the congregation that he wanted to go to Jerusalem as a missionary, and that he had been called to deliver a message from the Lord to the sin-cursed people; therefore he must be insane. The prosecution got into deep water in the proceedings, when Maj. Donnell called witnesses subpoenaed by the defense, and he had hard work trying to prove the contention that Dyer was crazy. The father of the young man, C. E. Dyer, and two of the women who attended the tent meetings, testified that their opinion was that Dyer was sane. But that was not the kind of testimony Donnell was looking for, and he suggested that

court adjourn until he could secure the proper list of witnesses.

Attorney Carrigan said he had an objection to Maj. Donnell examining the witnesses, according to the list he had so far followed, but the major, not satisfied with the quality of the testimony, declined to proceed further. Judge Wilbur indulged in a smile, and everybody in the courtroom laughed.

According to the testimony Dyer was a member of the Methodist church and a very ardent Christian; he attended the services in the tent and after the regular sermon he would exhort the congregation. When asked if he had ever seen or heard anything on the part of Dyer to indicate that he was insane, they all declared that they had not. Why? Because they were witnesses for the defense. Then it was that Attorney Carrigan queried Donnell.

At the afternoon session much testimony was given showing that Dyer was a religious enthusiast, and that he indulged in all sorts of extravagant statements to the young men in the tent, which he claimed, the witnesses stated, he had been called by God to do. The case will be resumed this morning.

THE INFERIOR COURTS.

SACRIFICES SON TO SAVE COW.

YOUNG BUTCHER IS ACCUSED OF EMBEZZLEMENT.

His Employers Offer to Settle, but Mother Cannot Part With Animal That Feeds Her Other Ten Children—Too Slow Moving His Auto and Is Fined.

Dame Fortune has been all smiles for the family of Harry Hirschfeld, who was taken before Justice Williams yesterday, on a charge of embezzlement \$3 from Berman's Kosher meat market, where he was employed. He pleaded not guilty and will be tried on the 25th inst.

Several weeks ago the father was taken to New York to answer to a felony charge. Shortly afterwards came the accusation by the young man's employers. They sought to effect a settlement with his mother before they swore to a complaint.

The only thing she possessed was a valuable cow, which was great comfort in making a living for ten children. It looked good to the butcher, but he could not give it up to save her son and let the other members of the family go hungry.

Didn't Speed Fast Enough.

C. M. Webb charged \$10 against his automobile expenses yesterday, when Justice Chambers assessed him that amount for disturbing the peace. The motor car was the cause of his trouble.

H. C. Blaney is the proprietor of a shoe store at No. 214 South Spring street. In the rear, on Center place, is Webb's carpenter shop. The owner of the vehicle backed it up against the rear door of the shoe store, shutting off light from the shoemakers.

Blaney remonstrated with Webb. The latter declared he would move the automobile when he was ready. About this time Robert K. Wilson, a shoe salesman, appeared and took up the burden of getting the machine moved.

He and Webb came to blows. The fight resulted in Webb meekly driving away.

Must Stay Sober a Year.

Arthur Goldener, 39 years old, must refrain from using liquor and remain away from saloons for a year or go to jail for twenty-five days. Justice Williams imposed these conditions when he put the young man on probation yesterday, after he had pleaded guilty to a charge of intoxication. Young Goldener became so drunk Saturday night that he

wrong house on Banning street and badly frightened several Japanese, who mistook him for a burglar and called a policeman.

Held for Battery.

A leaky water pipe is alleged to be responsible for George R. Mead, proprietor of a trunk factory at No. 418 South Spring street, being held before Justice Williams yesterday on a charge of battery. He will be tried on the 25th inst.

Mr. and Mrs. R. Broada, who have a restaurant above the trunk store, are the complainants. They declare Mead struck them during an argument regarding damage done to his stock by water leaking from a broken pipe in their place of business.

Must Face Charge. Automobile battery was charged against F. E. Hughes, an employee of the Western Motor Car Company, when taken before Justice Williams yesterday. He denied the allegation and will be given a hearing September 11.

Hughes accused of running down Don McDonald, boy, while the latter was riding a bicycle at Thirty-sixth street and Vermont avenue, Saturday. The boy was bruised and scratched.

The police say the driver of the machine did not stop after knocking down young McDonald.

His Quick Preliminary.

Arthur Keotch, deputy district attorney, yesterday established a new record for rapidity in holding preliminary examinations. Fifteen minutes after William M. McLaffin's name was called by Justice Chambers, the defendant had been held for trial in the Superior Court on two charges.

McLaffin is accused of floating fictitious and forged checks. The police say he left a trail of worthless paper down Main street one afternoon, having bought small articles in grocery stores and received change for the bad checks he gave in payment for the goods.

Expensive Amusement.

A quarrel in Michael Bunich's Market saloon, No. 615 Buena Vista street, Saturday night, resulted in P. R. Dares being fined \$100, with an alternative of working for the city 100 days, by Justice Williams yesterday.

Dares entered the saloon with three companions and ordered a glass of beer for each. Two of the men began fighting, and Bunich attempted to separate them, but Dares struck him on the head with a beer glass, inflicting several scalp wounds.

Slasher Goes to Workhouse.

The old story of two men with but a single sweetheart was related in Justice Williams's court yesterday, when Francisco Lamos was arraigned for battery on Juan Torres.

Lamos found Torres with the object of his affections on the night of August 7. Without any parole he got up with a long-bladed knife. When he had finished, Torres's face resembled a hamburger steak and his scalp was attached to his head only by several scalp wounds.

The justice gave the knife wielder six months in the workhouse.

Captures Ingrate.

William Vedenoff was sent to the workhouse for fifty days by Justice Williams yesterday for stealing a revolver, a pair of shoes and wearing apparel from Jacob Greenberg, his benefactor, who resides at No. 8113 Central avenue.

Greenberg paid Vedenoff's fine when he was sent to jail for drunkenness and gave him a position watching his house, while he went to the beach with his family. When Greenberg returned home he missed several of his belongings, and Vedenoff had disappeared.

He went on a still hunt and found Vedenoff in a position watching his house, while he went to the beach with his family. When Greenberg returned home he missed several of his belongings, and Vedenoff had disappeared.

PLUMBERS TAKE ACTION. Issue of alleged unsanitary plumbing in the McKinley and High is to be forced up to the Board of Education and the City Council by the Plumbers' Association, which will take action on the matter today.

E. Vesper, a plumber of this city, who is the situation, pointed out by plans, drawings and photographs a number of instances where the city ordinance relating to plumbing is being flagrantly violated.

For example, a city ordinance specifies that all vents must be their connection at an angle of less than 45 degrees. In the School the vents leave on a level and that below the surface of the basement. When this was placed in the High School at the time of its construction, a strong objection was raised against it and authorities Los Angeles who came out and inspected, finally declared it satisfactory. Since that time the question has been called to each year.

Under the Board of Education has made the objection of the school and the city plumbing inspectors, on the assumption "that the vents were placed because the school had been awarded in Los Angeles instead of locally." This has been refused and pointed to the city as sufficient justification for an objection on their part.

Hamilton, president of the Board of Education and City Health Officer, said that the stack burners must burn at night and day is proof that the plumbing is unsanitary and certainly question that concerns sanitary even when they are not.

BRYAN REQUIRIES. Funeral of Ruben Watson Bryan, superintendent of the Convention of the Great Northern, was held yesterday afternoon at the family residence at No. 124 Wilson avenue. Railroad superintendents of the east sent a floral blanket which covered the casket, and other floral tributes.

Stephen G. Emerson of San Francisco and Rev. James Leary of Lake Avenue Congregational conducted the services. Misses Boynton and Mabel Collins sang the hymn, "The Lord is My Shepherd." The Rev. Mr. Robert A. Owen, Major William D. Jones, A. B. Palmer and Coleman.

WORTHLESS HORSE. Martin, an old man residing in Los Angeles, drove a worthless animal as lame, lame and decrepit as a mule from Los Angeles to Monterey, where he was killed by a veterinarian L. H. N. DeBoron, who took it to Pasadena for humane treatment. Mitchell at once ordered the horse and ordered it to be brought to Pasadena, guilty before Justice Klam.

There he was killed by a veterinarian and paid a \$10 fine; left \$5 to

pay for the removal of the animal and went his way, a wiser man.

COW GOES BEGGING. J. Whitting, No. 125 South Vernon avenue and R. B. Spear, proprietor of a dairy, are in dispute over a Jersey cow and officers of the Humane Society are working to determine who is responsible for the abandonment of the bovine.

Whitting gave Spear a check Friday for \$25 in payment for the cow. Saturday he drove the cow back to Spear's dairy alleging that the animal had been sold to him under false pretenses and left there, although Spear refused to accept it.

The animal wandered back to a point near John Blake's residence on Lincoln avenue, where it stood the rest of Saturday and most of Sunday without water or food. Blake took compassion on the animal Sunday night and harbored it, reporting the case to the Humane Society, which is now making an investigation.

POWELL MEMORIAL. Tomorrow afternoon the Powell memorial, a recently completed wing of the Pasadena Hospital, will be dedicated and thrown open to the public. The donors of the building, Mrs. E. Powell and her daughter, Miss Kate Fowler, will receive at a public reception assisted by the building committee. Justice Klamroth, Dr. Stehman, Dr. Sherry and the officers and directors of the Pasadena Hospital Association.

CARRIAGE STAND AGAIN. Mayor Earley has requested General Manager McMillan of the Pacific Electric to have all cars stop at the Central park carriage stand and have it unattended by conductors.

Mayor Earley is working patiently to accomplish the desired end of having all public carriages congregated there.

"The drivers will go where the business is," said Mayor Earley yesterday, "and I rely on the public which creates business at the stand by placing its carriages over home phone number 33."

A man is in charge to look after the city stand.

REEK CRIMINAL. Telling her that he would give her some little white rabbits for pets, a man enticed a 16-year-old girl into the yard of the Billan Lumber Company shortly after 7 o'clock night before last and attempted a criminal assault. Her frenzied cries frightened him away.

The police are working on the case and have three different men under suspicion. The man is described as 5 feet 8 or 10 inches tall; weight 160 pounds; smooth shaven; red complexion; dark brown hair; sharp pointed nose; with an earring in his left ear; low tan shoes, four-in-hand; a set ring and a watch fob bearing a locket.

CADDIES TOURNAMENT. Justice Frederickson, Rev. C. N. Murphy, Dr. Hugh K. Walker's eldest son, and other champion golfers descended to the lower positions of caddies this morning and followed the small boys about the course in the caddies' tournament held at the Catalina Island Golf links.

It was a proposition of the small boy and the long stick, but even with the disadvantages of clubs meant for grown-ups, a few of the boys played good golf, and one of them, Frank Ace, who played from scratch, made the course in forty, which is only three more than Col. Bogey himself could make the nine holes in.

SMALL LINE—BIG FISH. Excitement reigned on the pleasure pier this morning when B. Atterbury, son of Dr. B. B. Atterbury of Pasadena, made the world's record in catching a huge black sea bass weighing 270 pounds on light tackle. It is believed here that such a big fish was never before caught on the island.

Mr. and Mrs. George Larkey of Los Angeles spent their honeymoon here and left for the city today.

POMONA, AUG. 22.—The mystery of the missing wheel and gun case, belonging to the late Wallace Stewart, son of Mr. and Mrs. W. B. Stewart of this city, who accidentally shot and killed himself while shooting in the southeast corner of here about a year ago, has been solved.

Fred Ford told Constable Blunker this morning that he had found a bicycle and gun case hidden under an oak tree northeast of Pomona. Mr. Stewart, the son and identified the articles as those of the unfortunate lad. The rusted wheel and case were found about a mile north of the irrigating water turn-out, where the young man's body was discovered and where he had evidently hidden them when starting to hunt.

ARTESIA HOME BURNS. Fine Collection of Hand-painted China Destroyed—Owner Will Soon Rebuild.

ARTESIA, AUG. 22.—The beautiful country home of J. C. Kornblum, one mile west of town, was entirely destroyed by fire last night. The family was having supper out under the trees in the back yard and had left the gasoline stove burning.

There was a heavy explosion, followed by a rush of flames from the kitchen door. It is supposed the gasoline stove exploded. Help was summoned from near-by ranches, but the fire could not be controlled. The piano and some chairs were all that was saved from the disaster.

One of the most beautiful private collections of fancy hand-painted china in Southern California was entirely destroyed. Mr. Kornblum estimates his loss at \$6000, with very little insurance. He will rebuild a much larger house.

WOULD OPEN BOULEVARD. Santa Monica City Council Adopts Map of Engineer for the Freeway—avenue Project.

SANTA MONICA, AUG. 22.—As a preliminary step to the creation of an air line boulevard from the ocean to Los Angeles, the City Council tonight adopted the engineer's plan for the opening and widening of Fremont avenue from the seaside to Cambridge street, which forms the city limits on the east. The distance is about two miles.

The street is already open for the greater part of the distance; but it is of varying width. The present plan is to make it eighty feet for the entire distance. This will require the purchase or condemnation of several blocks of property.

The recommendation of the engineer is for the formation of an assessment district, so that the expense of the project will fall in graduated amounts on all lots on either side of the proposed boulevard for a distance of from four to six hundred feet.

With the street opened, the next move would be to have it graded and paved. The expense of this would vary from \$10,000 to \$25,000, depending upon the material used.

The Council tonight decided to open Seventeenth street through to the south across the tracks of the Los Angeles Pacific, provided the price asked by the railroad company for the right of way should appeal to the Mayor as being reasonable.

SELL DEFENSE, HE SAYS. J. W. Robinson was arraigned this morning before Police Judge Carrillo, charged with assault with a deadly weapon. OCEAN PARK. OCEAN PARK, AUG. 22.—The City Trustees tonight approved Seymour D. Wheeler to the office of City Recorder, to succeed H. C. Rogers, who resigned. The trustees will meet again on Saturday and during that time a number of candidates developed for the office.

REDONDO BEACH.

BONE BROKEN, DOESN'T KNOW.

WOMAN WITH FRACTURE KEEPS ON SWIMMING.

For Two Hours She Enjoys the Sport of the Plunge and Surf Before She Learns That the Part of Her Skeleton at the Collar Has Been Severed by Accident.

REDONDO BEACH, AUG. 22.—Although Mrs. J. Storn of No. 1195 West Thirty-ninth street, Los Angeles, sustained a broken collarbone yesterday evening at the plunge, for two hours she swam in the plunge and surf unaware of the fact.

In going down the chute, she leaned back too far and struck her head. This stunned her and, before she could get away from the path of the slide, her daughter descended and struck her with great force on the back of her neck.

Harvey Grum, the life guard, at once rescued Mrs. Storn, who went to the bottom when hit by her daughter and as soon recovered from her fright and continued her swimming. Later a swelling developed and a physician was called, where the extent of her injury was ascertained.
